No. DGM (OP)/Cable Report/0015/2015-16

Date: 12.04.2016

To,
All Area GMs,
MTNL, Mumbai.

Sub:- Guidelines for processing Cable theft - Req.

Ref:-OP/Extl/Cable theft/2013-14 dated 24.08.2013

The matter of night patrolling by executives have been analysed. Due to retirement on superannuation there is a shortage of executives in various units and by calling executives in night duty , day to day work is affected. More over , CTD (Cable Theft Detector) have been installed in areas for cable theft detection.

However, Area GM's if feel necessary may make suitable arrangement for night duty in contingency situation like excessive digging etc. In such situation , concerned employee may also be asked to perform night duty.

Area GM's are directed to take appropriate steps to timely handle the situation arising due to CTD (Cable Theft Detection) alarm.

It has been decided to defer the night patrolling by executives for the time being.

Area GM units will provide the cable theft/damage report every 15 days to OP unit. If need arises, management can review the decision.

This has the approval of the competent authority.

Hindi version will be released separately.
